Re: Notice of Ex Parte Communication, MB Docket No. 12-107

Dear Ms. Dortch:

Today, Kelly Williams and the undersigned of the National Association of Broadcasters (NAB) spoke via phone with Steven Broecker, Michelle Carey, Maria Mullarkey, Mary Beth Murphy, Brendan Murray, Jeffrey Neumann and Diana Sokolow of the Media Bureau and Rosaline Crawford, Eliot Greenwald and Karen Peltz Strauss of the Disability Rights Office, Consumer and Government Affairs Bureau. The purpose of the meeting was to discuss the rules governing the implementation of Accessible Emergency Information, MB Docket No. 12-107 as it pertains to Mobile DTV.<sup>1</sup> Specifically, we discussed that because Mobile DTV utilizes different transmission architecture for audio and video mix than the main signal, Commission should not require accessible audible emergency information be transmitted on a second audio channel. Rather, the Commission's rules should afford flexibility to ensure that program originators and equipment manufacturers are able to decode and integrate additional audio information so that the viewer is able access emergency information.

Please direct any questions regarding these matters to the undersigned.

Respectfully submitted,
